Re: Spaulding Matters

Dear Honorable Sarrouf, Jr:

I was before you in 2019/2020 Docket # 1781CV03473 regarding my child being denied a free appropriate public education "FAPE" and property dispute. I am a whistleblower and exposed malfeasance/public corruption in most, if not all, municipalities in Massachusetts.

During the course of a residency investigation, Natick School Committee conspired with my neighbors to conduct surveillance of where my child was sleeping at night. It is undisputed that these images of my child taken of her in her bedroom are pornographic; nude/undressed.

It is undisputed that numerous court officers, including judges, clerks, forensic psychologist, attorneys, etc. are bad actors, co-conspirators denying my family our civil/constitutional rights. Thus far, Judges: Josh Wall, Bruce Henry, Valerie Yarashus, David Cunis, Doug Stoddart, Gloria Tan do not deny/dispute their involvement in fraud upon the courts, obstruction of justice, denial of civil/constitutional rights.

Evidence supports the FBI and DOJ are also aware and complicit as well as state and federal legislators. Governor Baker and his cabinet do not deny/dispute their involvement nor does AG Maura Healey and the State Police.

Do you have the images of my child? Are you a bad actor, a co-conspirator? Did you willingly commit fraud upon the court? Failure to respond will be interpreted as admission of guilt.

I simply seek the accurate truth to help my child heal; to be made whole.

Respectfully,

Corey Spaulding
